

DEFENSIVE DRIVING CLASS

Currently, in-person group training cannot be conducted under Ohio Department of Health (ODH) Orders. COVID-19 has caused us all to utilize alternate methods to complete work remotely, including training. One class we present each year; Defensive Driving is available on-line.

Who should take this online class??

- *If you have not attended the CORSA Defensive Driving Class (All employees should attend every 3-4 years)
- *If you have recently been in an auto accident
- *If you drive a lot for your job

This course is for you if you fall into one of the categories listed above!

Please use the website below to access CORSA University. It allows you to login in and take the Basic Defensive Driving OR Advanced Defensive Driving Techniques. You only have to take ONE defensive driving on-line class, but you are welcome to take both (they are 1 hour each). **Please print the certificate at the end of the course and forward it to HR.** Some insurance companies may also offer a discount for completing the course. If you have any issues accessing the class please contact the CORSA helpdesk @ 866-845-8887.
