## FROM THE SUPERINTENDENT

The Board held its organizational meeting on January 20, 2026. Two board members, Mark Bush and John Luttrell, were re-appointed by the Clinton County Commissioners. They were both sworn in and will serve 4-year terms. Additional board members are Tracy Ames, Joan Burge, Susan Frazier, Kelly Straw, and Bob Wilson. During the meeting, Bob Wilson was elected as President, Susan Frazier as Vice President, and Joan Burge as Secretary. The board will meet on the third Tuesday of each month (excluding July and December) at noon at our Sugartree location.

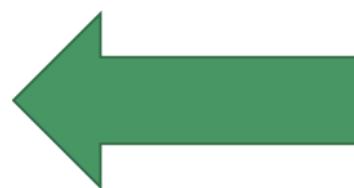

This is a reminder that Night to Shine will be held on Friday, February 13, 2026. It will be at Elevation Community Church in Blanchester again this year. This is always a fun and wonderful evening. Please consider volunteering or stopping by to cheer folks on as they walk that red carpet and dance the night away!

## TECHNOLOGY FIRST

Lending libraries are helpful for people with disabilities to try out different technology based on their needs before purchasing equipment, such as medical equipment or adaptive toys. Many programs offer lending services for free.

The Ohio Developmental Disabilities Council has identified assistive technology lending libraries across Ohio, view the online [interactive map](#).

## SIBLING SUPPORT

### SAVE THE DATES! SAVE THE DATES!

Siblings are the longest-lasting relationship in the life of a person with a disability—yet they are frequently overlooked. Supporting SIBS ensures siblings have a voice, trusted support, and access to the information they need now and in the future.

Typically developing siblings of individuals with special needs are invited to join us for our Sibling Support Groups! Activities are designed for those between the ages of 8 and 13 years old (give or take). Activities allow sibs to share the good and not so good things about having a family member with special support needs with other sibs who “get it.” Sibs will bond over shared experiences while engaging in games and discussions.

Our next sibling support groups will be held on June 1<sup>st</sup>, June 8<sup>th</sup>, July 27<sup>th</sup> and August 3<sup>rd</sup>. If you think your child(ren) may be interested, you are encouraged to register NOW, so that you will receive updates directly via email. There is a new, easier registration process available on-line from Ohio SIBS here:

<https://forms.office.com/r/6gKDhLSMEV>

Get loads more information by visiting the Ohio SIBS webpage: <https://www.ohiosibs.org/> While you are there take a minute to look at other ways siblings can be supported, including a virtual group and groups for teens, too!

For more information, contact Marnie Reed at (937) 944-3215.

## KEITH'S LAW

On October 20, 2025, Ohio Governor Mike DeWine signed House Bill 144, known as Keith's Law, into law. This legislation expands Ohio's Communication Disability Law by allowing first responders to receive important information from individuals with communication disabilities during countywide 9-1-1 calls. People with a diagnosed disability, as well as drivers who regularly travel with someone who has a communication disability, may voluntarily enroll in a database connected to the Law Enforcement Agencies Data System (LEADS). This helps law enforcement officers approach situations with greater awareness, reducing potential misunderstandings and improving safety. Enrollment requires completion of a [verification form](#), and more information is available through Opportunities for Ohioans with Disabilities.

## EARLY INTERVENTION

Help Me Grow Early Intervention

Having a new baby or small child can feel isolating, and parents are sometimes left questioning their parenting skills or their child's development.

Parents, it's hard not to compare your child's development to social media images and stories, or even compare them to other children. So how are you to know if your child's development is on track?

While parents should always talk to their child's doctor, there are many resources available within Ohio's Help Me Grow system of supports.

Begin by visiting <https://helpmegrow.org> to learn about the developmental screenings, home visiting or early intervention programs available in Clinton County.
