## Home Based Business & Occupation Permit Application/Declaration

The Clinton County Zoning Resolution states in section 4.24 that the purpose of the home occupation provisions shall be to allow home occupations that are clearly incidental to the principal residential uses; provided that they are conducted in a manner compatible with the residential character of the district in which they are located. The intent is to protect residential areas from adverse effects of activities associated with home occupations, while permitting residents of the community the opportunity to use their home as a workplace and source of livelihood under specific regulatory conditions. The home occupation is an accessory use, including a business, profession, or other economic activity, which is conducted full-time or part-time in a dwelling unit (or its accessory structure) that serves as the principal residence of the practitioner.
