

For Immediate Release

Natural Gas Aggregation for Clinton County

Clinton County, OH— 12/15/2025 With the current natural gas aggregation contract negotiated by CCAO set to expire in June 2026, the Clinton County Commissioners consulted with the County Commissioners Association of Ohio Service Corporation (CCAOSC) and Palmer Energy for an extended term.

Consequently, the Clinton County Commissioners announced today, the natural gas governmental aggregation program service for the **County's prospective eligible nat gas participants** (Village of Sabina) **served by Centerpoint Energy (CPE) has been extended.**

Clinton County has extended their current agreement with Archer Energy for a term ending May 2028 at a fixed rate of \$0.6999 per ccf. This new rate will go into effect on your January 2026 Centerpoint Energy (CPE) bill.

The CCAOSC energy aggregation program currently consults with over two dozen other Ohio counties and has helped save participating residential and small commercial customers millions of dollars since the program's inception in 2009.
